

OSEP! (now)

Just in time—two indispensable tools to take the pain out of meeting the new Office of Special Education Programs (OSEP) mandates for reporting outcomes for Part C and Part B/Section 619 programs.

1

Already using CreativeCurriculum.net? Try SNAP™ for painless OSEP reporting.

Make OSEP easier for teachers! Add the Special Needs Accountability Pack (SNAP)™ to CreativeCurriculum.net, the country's leading web-based ongoing assessment system. SNAP™ automates the process of converting ongoing assessment data from CreativeCurriculum.net into OSEP reports... ►

2

Using other assessment tools? OSEPreports.net brings them all together.

Blend the results and generate reports from multiple assessment instruments by using OSEPreports.net, a unique Internet-driven system powered by CreativeCurriculum.net. OSEPreports.net makes generating statewide or district-wide reports simple. Data is entered directly into the ECO Outcomes Summary Form... ►

Does your organization include programs that use both CreativeCurriculum.net and other assessment systems?

If so, combine CreativeCurriculum.net and other assessment tools! Our ingenious patent-pending process allows administrators to combine the data from CreativeCurriculum.net with the data from OSEPreports.net to generate statewide, district-wide, or program OSEP Reports.

OSEP reporting is a

SNAP!

CreativeCurriculum.net is the award-winning curriculum-based online system that integrates ongoing assessment with powerful reporting, inspired program planning, and engaging parent communication features.

Used by more than 350 organizations around the world to provide reliable online assessment services for more than 185,000 children, CreativeCurriculum.net allows educators to use authentic assessment to make decisions and report group and individual progress. Designed specifically for use in inclusive programs, the CreativeCurriculum.net engine has evolved to include hundreds of robust tools and reporting capabilities for teachers, parents, and administrators. The system also includes 7 analytical group outcomes reports that can be generated in over 50 preschool standard report formats and 3 optional modules. Combined with our SNAP™ and TeamCentral™ modules, CreativeCurriculum.net can now be **the complete solution for statewide and district-wide reporting on OSEP** outcomes in early intervention settings.

CreativeCurriculum.net + SNAP™

- Curriculum-based online assessment for *all* children birth through age 5
- Automatically generates OSEP outcomes reports from ongoing assessment without duplicating data entry
- Aggregates data at the state, district, or school level
- TeamCentral™ module empowers multiple service providers to participate in the assessment process
- Advanced analytical tools inform program improvement efforts
- Scientifically based method for determining typical and OSEP outcomes categories

OSEPReports.net

- The simplest, most direct system available for data entry:
 - 7-point ECO Child Outcomes Summary Form
 - 5 ECO-recommended outcomes categories
- One central database creates consolidated OSEP and analytical outcomes reports
- Flexible, real-time reports at the state, district, or school level
- Used with locally developed or commercially available assessment systems
- Blends data from multiple assessment tools
